(A) Counsellors' Reflections On Gambling – Hong Kong's Experience

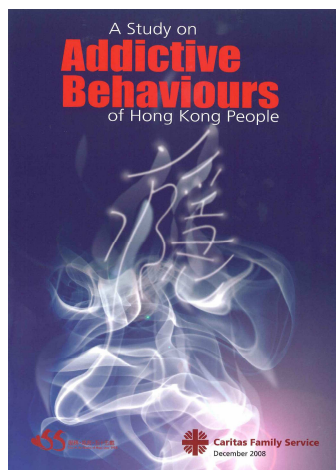

Recommendation:
.....The book will hopefully add to the growing awareness amongst widening groups of concerned citizens in Hong Kong and elsewhere about the devastating effects excessive gambling can and does have on the community; it should also add to the emerging questions

about the ethical aspects of this form of 'recreation' and about the profound implications its spread has on the society as a whole.....

Jacques Boulet, PhD

*Gambling Researcher and consultant, Borderlands Cooperative
Head of oases Graduate School in Integrative and Transformative Studies.*

(B) A Study on Addictive Behaviours of Hong Kong People

Recommendation:
“Addiction is a habitual repetition of excessive behaviour that a person is unable or unwilling to stop, despite its harmful consequences.” This exploratory study is conducted for a better understanding of people with addictive behaviours.

Promotion Period: 12-2008 to 31-3-2009
